

# Business plan activities 2020/21

## Overview

The 2020/21 Business Plan outlines Victoria Law Foundation's work program for the 2020/21 financial year.

## Priority areas 2020/21:

Our functions are: Education, Grants, Research and Organisation and the priority areas for 2020/21 are set out in the table below.

In addition to work in each of the functions, the interrelationship between them is one of the great attributes of the Foundation. With the advent of Research over the last 12 months, this too is contributing to and benefiting from our activity in other areas.

Highly integrated Communications and Business and Finance teams are essential to the success of the VLF.

## Strategic priorities 2020/21

	Organisation Sustainability and capability	Research Building the evidence base	Education Supporting legal literacy	Grants Responding to legal need
1	Use technology to streamline organisational processes	Public focused high impact research: PULS	Expand and diversify audiences	Consolidate Knowledge Grants in the sector
2	Implement a comprehensive data governance framework	Sector focused research: Data Mapping parts 2 and 3	Support the justice sector to engage better with community	Add value beyond financial support
3	Build the profile and presence of grants and research functions	Understanding what works: Scope and start useful evaluation project/s	Evaluate impact of professional education programs	Close engagement to ensure responsiveness to need
4	Consolidate communications channels & metrics	Expand collaborative relationships		
Ensuring strong links between our functions
